Hello All,

Please see the below string of E Mails and photos from Sergeant Case (OCB HOPE). The UHRC is requesting resources on April 11, 2019 for a coordinated clean up. The owner of the property is paying for the removal of needles, fees and trash that the unsheltered individuals have created and left on his personal property. OCB HOPE has been working closely with the owner to address his concerns and he would like for the wash to be cleaned on the same day he has scheduled the private company to clean his side of the property. LASAN, Is it possible to coordinate this on the same day?

Brian, can you assist with identifying the necessary contact as well as contact to get the fence fixed? Victor, is it possible to have LAHSA conduct outreach at this location days prior to the clean up? Please advise if I am missing anything Sergeant Case

Thank You to everyone in advance,

Emada

LT,

Here are the photos from the location that we talked about. LA City owns the wash, and will be responsible for that, but the property owner has stated that he will hire a cleanup crew for his portion. He has claimed ownership of all of the land up to the fence where the wash is.

Since the owner is spending so much money to get the area cleaned, he has requested that we get Sanitation there to clean the wash at the same time, and get the fence fixed to prevent a reoccurrence.

Sergeant Jerald Case

Hey Sarah,

Here are some photos from the rear of 20730 prairie. The owner of the property is hiring a company to clean the area but they are requesting the city to clean the inside of the wash and to repair the fence. They are talking about cleaning this on April 11th, 2019

The inside of the wash is just trash, no encampments. What do you recommend we do to clean this?
